SALES SUPPORT

PRODUCT UPDATE: OCTOBER 2026

- Now changes into 4 positions, Stepladder, Extension, Twin, Stairway
- Type IA 300 lbs.
- 6% lighter than previous version.
- Stepladder Shoe- Impact resistant shoes with non-slip tread.
- Extension Shoe- New design 40% more grip compared to our old design .
- Dual Hooks-Step Hook and Extension Hook mean more positions and more capability on the jobsite with better transitions between positions.
- Guide Locking System-Gives users a smoother control when switching positions, no stiff springs or sudden snaps.
- Integrated Pole Grip- Made of flexible high strength nylon webbing with a 5" section of corrugated rubber tread. Allows top of ladder to lean against poles & pipes. Unlike detachable accessories, this integrated design ensures durability and convenience. No extra parts, no hassle.
- Rigid Bumpers- Non-marring bumpers to protect work surfaces.
- The Louisville FXC1100 series Fiberglass Combo ladder meets or exceeds ANSI, CSA, and OSHA standards.
